QUICK BINDERS

Ark-Plas is a manufacturer of injection molded and extruded plastic components. Our products include luers, barbed connectors, stopcocks, valves, tubing and more. For over thirty years Ark-Plas has served a wide range of markets from the life sciences to industrial. This extensive experience allows our knowledgeable sales staff to solve each customer's unique problems. Our number one priority is providing value to each customer. Expect Excellence.

SIMPLE

All products featured in this catalog are manufactured and inventoried in our single Arkansas based location. This means our customers can choose from over 4000 off the shelf components without the added costs associated with engineering and tool design. Coupled with our variety of service options, our expansive catalog allows you to find the perfect balance of price, performance, and convenience.

FLEXIBLE

Each customer's needs are different. This is why Ark-Plas designs, engineers and manufactures all tooling in house. This flexibility allows us to modify an existing part at minimal cost, or start from scratch to create something entirely unique. With no upfront tool making fees, Ark-Plas makes custom easy.

RELIABLE

We believe in setting standards. Because Ark-Plas is an **ISO 9001:2008** registered company, our customers are assured that each ordering experience is better than the last. Utilizing our constantly evolving, in-house developed MRP II system we track every point of data from order placement to shipment. With Ark-Plas, you don't have to worry about things slipping through the cracks.

DIVERSE

All Ark-Plas products are available in a number of standard materials, each with its own unique set of chemical and mechanical properties. This variety allows us to serve a number of industries that have special requirements, from biocompatibility to physical durability. No matter what part configuration you choose we have a material that make it a perfect fit.

HELPFUL

We want to do as much as possible for each customer. In addition to our molded and extruded products, Ark-Plas offers a number of value added services. These include barcoding, specialized packaging and assemblies.

Let Ark-Plas help solve your unique problems. Contact our experienced sales staff today.

PREMIUM GRADE BARBED FITTINGS

- Virgin Base Material
- Product Certification Available
- No Parting Line on Barb
- Up to 125 P.S.I. Without Clamps

Ark-Plas Premium Grade Fittings are molded from virgin, lot-traceable material only. Molded to the most exacting standards, Premium Fittings are made with critical use applications in mind. Premium fittings are stocked in White Nylon, Polypropylene, Clear Polycarbonate, and Kynar (PVDF). Non-standard materials are available on special order. ■

AVAILABLE IN TWO BARB STYLES

Standard: Designed to accommodate most types of flexible tubing. ID is expanded 40% to 50% above nominal ID value. Holds up to 125 PSI without the use of tubing clamps.

Hard-Line: Designed for use with semi-rigid tubing, also popular for low-pressure flexible tubing applications. Tubing is expanded 21% above nominal ID value.

WHICH BARB STYLE IS RIGHT FOR YOU?

The **Standard Barb** is designed to accommodate most types of flexible tubing. Expanding the ID value by 40% to 50% allows the barb to hold up to 125 PSI. The **Hard-Line Barb** is designed for use with semi-rigid tubing. This barb is popular for low-pressure flexible tubing applications. The Hard-Line Barb expands the tubing ID 21% above nominal value.

COMMERCIAL GRADE BARBED FITTINGS

- Economic and Reliable
- Up to 125 PSI without Clamp

Commercial Grade Fittings are designed as a low cost alternative with high end performance. Our commercial fittings contain recycled runner material and are available in Natural Nylon and Natural Polypropylene. Non-standard materials are available on special order. ■

LUERS

- Conforms to ISO Standards
- Available in all common luer connections

Ark-Plas Luers are designed and tested to the **ISO 594-1** and **594-2** standards. All Luers are molded in virgin, lot-traceable material only. Standard materials are Natural Nylon, Natural Polypropylene, and Clear Polycarbonate. Non-standard materials are available on special order. ■

STOPCOCKS

- Conforms to ISO Standards
- Handle Rotates 360°

Ark-Plas Stopcocks are molded in virgin, lot traceable materials only. All ports conform to **ISO 594-1** and **594-2** standards and are available in every possible 1-way and 4-way configuration of locking male, male slip, and female. ■

MATERIAL INFO

Kynar® is a specialty plastic generally used in applications requiring the highest purity, strength and resistance to solvents, acids, bases and heat.

1-WAY FLOW

1-way stopcocks have a handle that turns a full 360°. Turning the handle parallel with the ports will allow flow.

CHECK VALVES

- Disc or Duckbill Based
- Low Cracking Pressure

All Ark-Plas Check Valves are molded in virgin materials only. Our disc based Check Valves utilize a free floating design and can be used in any position with an immediate response to change in pressure or flow. Disc Based check valves feature like bodies and can be sold in any configuration of barb, thread or luer. Minimum orders apply for non-standard configurations. ■

HAX36-PP0	3/8" x 3/8"	Viton / Polypropylene

DIRECTION OF FLOW

All Check Valves are designed with visible indicators for direction of flow to ease in single, or assembly line type installation. Direction arrows are molded onto the body of the part. The overall shape of the part is also an indication of flow, as shown below.

REDUCING

Reducing Check Valve

3/16" x 1/8"

ITEM NUMBER	SIZE	DIAPHRAGM / BODY
HCX82-NY0	3/16" x 1/8"	Neoprene / Nylon
HCX82-YC0	3/16" x 1/8"	Silicone / Polycarbonate
HCX77-NY0	3/16" x 1/8"	Silicone / Nylon
HCX82-DF0	3/16" x 1/8"	Viton / Kynar
HCX82-PP0	3/16" x 1/8"	Viton / Polypropylene

Reducing Check Valve

1/4" x 1/8"

ITEM NUMBER	SIZE	DIAPHRAGM / BODY
HCX66-NY0	1/4" x 1/8"	Neoprene / Nylon
HCX66-YC0	1/4" x 1/8"	Silicone / Polycarbonate
HCX29-NY0	1/4" x 1/8"	Silicone / Nylon
HCX66-DF0	1/4" x 1/8"	Viton / Kynar
HCX66-PP0	1/4" x 1/8"	Viton / Polypropylene

Reducing Check Valve

1/4" x 3/16"

ITEM NUMBER	SIZE	DIAPHRAGM / BODY
HCX86-NY0	1/4" x 3/16"	Neoprene / Nylon
HCX86-YC0	1/4" x 3/16"	Silicone / Polycarbonate
HCX88-NY0	1/4" x 3/16"	Silicone / Nylon
HCX86-DF0	1/4" x 3/16"	Viton / Kynar
HCX86-PP0	1/4" x 3/16"	Viton / Polypropylene

Reducing Check Valve

3/8" x 1/8"

ITEM NUMBER	SIZE	DIAPHRAGM / BODY
HCX26-NY0	3/8" x 1/8"	Neoprene / Nylon
HCX26-YC0	3/8" x 1/8"	Silicone / Polycarbonate
HCX63-NR0	3/8" x 1/8"	Silicone / Nylon
HCX26-DF0	3/8" x 1/8"	Viton / Kynar
HCX26-PP0	3/8" x 1/8"	Viton / Polypropylene

Reducing Check Valve

3/8" x 3/16"

ITEM NUMBER	SIZE	DIAPHRAGM / BODY
HCX50-NY0	3/8" x 3/16"	Neoprene / Nylon
HCX50-YC0	3/8" x 3/16"	Silicone / Polycarbonate
HCX37-NY0	3/8" x 3/16"	Silicone / Nylon
HCX50-DF0	3/8" x 3/16"	Viton / Kynar
HCX50-PP0	3/8" x 3/16"	Viton / Polypropylene

CHECK VALVES

Reducing Check Valve

3/8" x 1/4"

ITEM NUMBER	SIZE	DIAPHRAGM / BODY
HCX65-NY0	3/8" x 1/4"	Neoprene / Nylon
HCX65-YC0	3/8" x 1/4"	Silicone / Polycarbonate
HCX10-NY0	3/8" x 1/4"	Silicone / Nylon
HCX65-DF0	3/8" x 1/4"	Viton / Kynar
HCX65-PP0	3/8" x 1/4"	Viton / Polypropylene

ENLARGING

LOOKING FOR SOMETHING DIFFERENT?

All disc based check valves utilize like inlet/outlet bodies. This means virtually any luer or barb configuration not available as a standard part can be made without requiring additional tooling. Minimum orders apply, contact our Sales team for more information. **870.453.2343**

Inline Filters

- Barbs Hold up to 125 PSI
- High Density Polyethylene or
Stainless Steel Filter

Inline Filters are molded in virgin materials only and are designed for removing most visible particulate in aqueous solutions. Standard materials are Natural Nylon, Natural Polypropylene, and Clear Polycarbonate. Non-standard materials and configurations are available. ■

TUBING

Ark-Plas tubing is extruded using state of the art inline process monitoring equipment to ensure only the highest quality product ever leaves our facility and the customer is never short shipped.

Standard tubing is shipped bulk on cardboard spools. Special packaging options are available on a per-quotation basis. ■

Additional value-added extrusion services include:

- Cut to length (3/8" minimum)
- Scoring
- Printing
- Slitting

SPIRAL
WRAP

Spiral wrap is an ideal covering used to bundle and protect tubing and wires. Ark-Plas spiral wrap is manufactured from a lightweight, low cost LLDPE and can be bundled around most items with a diameter of 1/16" to 7". ■

ADDITIONAL MATERIAL INFORMATION

For additional material information such as physical characteristics, MSDS and chemical compatibility please contact our Sales Department. **870.453.2343**

IMPORTANT

Technical Data is provided for informational purposes only and shall not be used to establish specifications, limits, or used alone as the basis of design. Actual conditions of your use, temperatures, chemical concentrations and other unknown conditions may alter expectations. Detailed Data Sheets are available for each material upon request.

We recommend testing our product under actual conditions prior to purchase.
Free samples are available on request.

For other technical information please reference our website or contact a customer service representative.

ORDERING INFORMATION

For quotations, inquiries, ordering, and assistance please visit us at www.ark-plas.com or contact our Customer Service Department at **(870) 453-2343**.

Our representatives are available Monday through Friday between the hours of 8:00 AM and 5:00 PM, CST.

We can also be faxed at **(870) 568-0811**, or e-mailed at info@ark-plas.com, 24 hours a day.

Our mailing address is:

Ark-Plas Products, Inc.
Customer Service Department
165 Industry Lane
Flippin, Arkansas 72634

We accept Visa, Master Card, and American Express as a quick and easy option for payment of your order. Contact Customer Service for more details. Discount terms do not apply to credit card purchases.

We urge our customers to take advantage of our free sample offer. Call, fax, or write our customer service department, or visit our web site (www.ark-plas.com) for free samples. We will be pleased to provide samples of any item in our catalog for testing and evaluation.

TERMS OF SALE

• Minimum order - \$50.00 • 1% 10 Net 30 Days • FOB Flippin, Arkansas

- Goods considered defective must be reported within 30 days.
- All request for credit return must follow RMA Procedure prior to return.
- Delivery of goods returned without authorization will be refused.
- Minimum charge for restocking is \$50.00 or 25% of the invoice value, whichever is greater.
- Color coded parts cannot be returned for any reason other than an error by Ark-Plas Products, Inc.

Premium Grade Fittings cannot be returned for any reason other than an error by Ark-Plas Products, Inc. This is your assurance that no Premium Grade Fittings ever leave our control and are restocked for future sale.

Shipments will not be insured unless requested by the buyer. Orders will be acknowledged with our standard terms of sale, current at the time order is placed.

RMA Procedure: If parts are found to deviate beyond tolerances, mail samples back to us with your report. Upon our findings, we will then issue an RMA number. No material or parts will be accepted for credit without an RMA. Unauthorized returns will be shipped back and re-invoiced with a minimum handling charge of \$50.00 added.
